

## COMMISSIONING PROCESS

Decide on size and price.

1. Have a discussion about favourite colours and flowers. (optional)
3. Send me photos of the house and rooms where the painting might hang. (optional)
4. I work up a digital collage which will give a good sense of composition and colour palette.
5. I email the client the digital collage for approval and at this point I am happy to adjust colours but there will be no further changes to overall composition.
6. Client approves the digital collage in writing.
7. Before I begin the painting a payment of 50% of the total price of the painting is paid upfront. The final payment is made upon completion and before delivery of the finished painting.
8. Framing and delivery is at an extra cost.
9. The copyright remains with the artist.
